Description: The subject vehicles are equipped with halogen headlamps that allow the circuits for both the high and low beam bulb filaments to be energized at the same time when the high beams are switched on.

Under some conditions, if the high beams are repeatedly left on for an extended period while the vehicle is idling or driving at low speed, there is a possibility that the bulb connector could overheat to a level that can result in an increased risk of a fire that can propagate to other parts of the vehicle.

Remedy: Toyota is currently preparing the remedy. When the remedy is available, Toyota dealers will modify the engine wire harness assembly and inspect the headlight bulb connector, bulb, and headlight assembly. If one or more of these components is found to be damaged due to this overheating condition, the damaged component(s) will be replaced with new ones as needed.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Toyota Recall / Service Campaign

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013. This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns.
